

Turn Your Glass Into Radiators With New FINEO Ultra Slim Vacuum Glazing

Ultra slim FINEO glass has a thermal insulation value of 0.7 W/m²K, which is equivalent to triple glazing, and up to 8 times better than single glazing.

Retrofitting FINEO into your existing timber framed windows will transform them into invisible radiators by keeping

heat in and cold out, no matter what the temperature is outside.

FINEO will maintain the original aesthetic of your home for years to come.
